## Dylox<sup>®</sup>6.2

#### FIRST AID

#### Contains an organophosphate that inhibits cholinesterase.

IF SWALLOWED:	<ul> <li>Call a poison control center or doctor immediately for treatment advice.</li> <li>Have person sip a glass of water if able to swallow.</li> <li>Do not induce vomiting unless told to by a poison control center or doctor.</li> <li>Do not give anything to an unconscious person.</li> </ul>
IF IN EYES:	<ul> <li>Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.</li> <li>Call a poison control center or doctor for treatment advice.</li> </ul>
Have the product c	ontainer or label with you when calling a poison control center or doctor or

Flave the product container of label with you when calling a poison control center of doctor of going for treatment. The Bayer Environmental Science Emergency Response Telephone No. is 1-800-334-7577.

**Note To Physician:** Prolonged exposure will cause cholinesterase depression. Atropine Sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

#### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

#### CAUTION

Harmful if swallowed. Causes moderate eye irritation. Do not take internally. Do not breathe dust. Avoid contact with eyes, skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some people.

#### PERSONAL PROTECTIVE EQUIPMENT

Mixers, Loaders, Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- · Shoes plus socks

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

#### ENGINEERING CONTROL STATEMENT

When handlers use closed systems, enclosed cabs in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240 (d) (4-6)]. The handler PPE requirements may be reduced or modified as specified in the WPS.

#### **User Safety Recommendations**

- Users should:
   Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put
- on clean clothing. • Remove PPE immediately after handling this product. Wash outside of gloves before
- removing. As soon as possible, wash thoroughly and change into clean clothing.

#### **ENVIRONMENTAL HAZARDS**

This product is toxic to fish, birds, and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply when turf grass areas are water-logged or the soil is saturated with water (i.e. will not irrigate). Avoid run-off or puddling of irrigation water following application. Use only as directed on this label. Do not use on crops used for food or forage.

Golf courses: Do not apply within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes, natural ponds, or estuaries.

Root Feeding Insects		
green June beetle	weevil (larvae) cranberry girdler chinch bugs : larvae of Asiatic garden beetle, black turfgrass ataenius, European chafer, , Japanese beetle, <i>Aphodius</i> spp., May or June beetles ( <i>Phyllophaga</i> spp.), ern masked chafers ( <i>Cyclocephala</i> spp.), Oriental beetle, and sugarcane grubs	
Use Rate	<ul> <li>3 pounds per 1,000 sq. ft. of turf.</li> <li>Refer to chart for spreader settings (Make sure your spreader is calibrated for this product before application).</li> </ul>	
How to Apply	<ul> <li>Turf should be free of troublesome thatch, which encourages insects.</li> <li>For best results, ensure that there is no more than ½ inch of thatch present at time of application. Under dry conditions, where thatch is present, prevatering is recommended prior to application for control of white grub and weevil larvae.</li> <li>Water the turf and cut to proper height.</li> <li>Apply granules with a broadcast or drop type spreader.</li> <li>The applicator must water-in after application or notify the property owner that he/she must water-in in order to move the product into the root zone.</li> </ul>	
When to Apply	<ul> <li>Apply when pests are seen or found.</li> <li>Consult your Agricultural Extension Service for the best time to treat in your area.</li> <li>A second treatment may be needed for mature large sized grubs.</li> </ul>	

Root Feeding Insects - 3 lb/1,000 sq. ft.			
Spreader	Setting	Spreader	Setting

Scott's Drop	4.5	Sears Drop	7
(30 pounds will treat 10,000 sq. ft. at this rate)			

#### Application Restrictions

 Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

• Only protected handlers may be in the area during application.

Aerial application is prohibited.

- To release the active ingredient from the granule, and to move the active ingredient into the root zone where the insects feed, the applicator must water in after application, or notify the property owner that he/she must water in.
- Do not apply this product using "chest mounted rotary-type spreaders."
- For application to turf, limit applications to 3 per calendar year with 7-day retreatment intervals.
- Do not apply more than 24.5 lbs a.i./A per year for grubs and mole crickets and 16.2 lbs a.i./A
  per year for surface feeding insects.

#### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. IMPORTANT: Read these entire Directions for Use before using DYLOX $^{\otimes}$  6.2 Granular Insecticide. NOTE: Not for use on turf being grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

#### ENTRY RESTRICTIONS

Do not enter or allow others to enter the treated area (except those persons involved in the incorporation) until the incorporation is complete. If the incorporation is accomplished by watering-in, do not enter or allow others to enter the treated area until the surface is dry after the watering-in. For home lawns, notify the property owner that he/she must water-in.
